

## **Track Systems Traqmate Featured on Dream Car Garage**

Traqmate GPS Data Acquisition Used To Judge Competition

Atlanta, GA, May 20, 2005

---

Track Systems Technologies, LLC today announced that the Traqmate GPS Data Acquisition system will be featured on the season finale of Dream Car Garage on the cable SPEED Channel. The show is scheduled to air on Saturday, May 21<sup>st</sup> at 9:30 AM and Friday, May 27<sup>th</sup> at 7:30 AM.

Track Systems was given the responsibility to be judge and arbiter as show stars Tom Hnatiw and Peter Klutt squared off in competition with the '89 Mustang and the '65 Shelby that they built during the 2005 season. Traqview, Track Systems' playback program, will be used to show the vehicles in head-to-head competition.

"Traqmate was ideal for this competition. We didn't want to disturb the cars in any way so we just Velcroed the Traqmate units into the cars and they recorded acceleration, braking, and the road course competition", said Glenn Stephens, Vice President, Marketing.
